

Compliance & Data Overview

Practical safety, clear governance, and NDA-friendly data handling.

Health & Safety

- Safety-first: RAMS ownership, daily briefings, and rapid NCR close-out (target $\leq 48h$).
- Alignment with CDM 2015 and client procedures; toolbox talks supported.
- Tickets: CSCS (PQP) – details available on request.

Insurance & Right to Work

Professional Indemnity and Public Liability insurance maintained (certificates provided on request). UK right to work.

Data & Confidentiality

- Operate under NDA as standard; client approval on disclosures and logo use.
- Client files stored in UK/EU cloud with access controls and versioned calculation packs.
- No client PII entered into public AI tools; assisted drafting is always engineer-reviewed.
- Clear audit trail: parameter logs, change control, and reproducible FE workflows.
